New Resources:

**Kanopy Streaming Videos**: Currently there are only a few streaming videos in the social sciences for USC, however, we can purchase more by request from Kanopy's catalog.

**Data Citation Index**: The new index in Web of Science that provides access and citation counts of original digital research data from over 500 data repositories.

Library Tip:

Google Scholar is a great resource for finding conference presentations and other hard to find publications. Did you know you can set Google Scholar up to include USC Libraries subscription resources including interlibrary loan links? Learn how from our recent Library Tips post.
